BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE STATE OF IDAHO

IN THE MATTER OF DISTRIBUTION OF WATER TO VARIOUS WATER RIGHTS HELD BY OR FOR THE BENEFIT OF A&B IRRIGATION DISTRICT, AMERICAN FALLS RESERVOIR DISTRICT #2, BURLEY IRRIGATION DISTRICT, MILNER IRRIGATION DISTRICT, MINIDOKA IRRIGATION DISTRICT, NORTH SIDE CANAL COMPANY, AND TWIN FALLS CANAL COMPANY	Docket No. CM-DC-2010-001 **FINAL ORDER CURTAILING GROUND WATER RIGHTS JUNIOR TO MARCH 31, 1954**

The Director of the Idaho Department of Water Resources ("Department") finds, concludes, and orders as follows:

FINDINGS OF FACT

1. On July 19, 2023, the Idaho Department of Water Resources ("Department") issued its *Sixth Final Order Regarding Methodology for Determining Material Injury to Reasonable In-Season Demand and Reasonable Carryover* ("*Methodology Order*"). The *Methodology Order* established nine steps for determining material injury to members of the Surface Water Coalition ("SWC").[1]

2. On April 18, 2024, the Director issued the *Final Order Regarding April 2024 Forecast Supply (Methodology Steps 1-3)* ("*As-Applied Order*"), which applied steps 1, 2, and 3 of the *Methodology Order*. The Director predicted an April in-season demand shortfall ("IDS") of 74,100 acre-feet. *As-Applied Order*, at 3. The Director ordered that, by May 2, 2024, ground water users with consumptive water rights "bearing priority dates junior to March 31, 1954, within the Eastern Snake Plain Aquifer area of common ground water supply [("ESPA ACGWS")] shall establish, to the satisfaction of the Director, that they can mitigate for their proportionate share of the predicted April IDS of 74,100 acre-feet in accordance with an approved mitigation plan." *Id.* at 6. The Director also ordered that, if such a junior ground water user cannot establish that they can mitigate for their proportionate share of the predicted IDS "in accordance with an approved mitigation plan, the Director will issue an order curtailing the junior-priority ground water user." *Id.*

[1] The SWC is comprised of A&B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company.

3. There are currently seven approved mitigation plans in place responding to the SWC delivery call[2]:

(1) Docket No. CM-MP-2009-007 for the benefit of the Idaho Ground Water Appropriators, Inc. ("IGWA") (delivery of stored water);

(2) Docket No. CM-MP-2009-006 for the benefit of IGWA (conversions, dry-ups, and recharge);

(3) Docket No. CM-MP-2016-001 for the benefit of IGWA (the IGWA and SWC stipulated mitigation plan);

(4) Docket No. CM-MP-2010-001 for the benefit of the Southwest Irrigation District and Goose Creek Irrigation District (collectively, "SWID");

(5) Docket No. CM-MP-2019-001 for the benefit of certain cities commonly referred to as the "Coalition of Cities";

(6) Docket No. CM-MP-2015-003 for the benefit of the A&B Irrigation District ("A&B"); and

(7) Docket No. CM-MP-2007-001 for the benefit of certain entities commonly referred to as the "Water Mitigation Coalition."

4. In the 2024 *As-Applied Order*, the Director found that due to the nature of the approved mitigation plans for SWID, the Coalition of Cities, and the Water Mitigation Coalition, these entities do not need to establish they can mitigate for their proportionate share of the predicted April IDS. *See As-Applied Order*, at 5 n.8. However, the Director found that A&B must mitigate for its proportionate share of the predicted IDS of 74,100 acre-feet and determined that A&B's proportionate share is 455 acre-feet. *Id*. Regarding IGWA's mitigation plan CM-MP-2016-001, the Director found that IGWA does not need to establish it can mitigate for its proportionate share of the predicted IDS. *Id*. at 5–6 n.8. Regarding IGWA's mitigation plan CM-MP-2009-007, the Director found that IGWA's obligation is 74,100 acre-feet, and consistent with the plan IGWA must mitigate for all ground water users. *Id*. at 6 n.8.

5. In response to the 2024 *As-Applied Order*'s requirement for junior ground water right holders to establish how they will mitigate their proportionate share of the predicted demand shortfall, A&B sent a letter to the Director stating:

> [I]t is the District's intent to continue to curtail the enlargement water rights (2,063) acres for the 2024 irrigation season. The District will also deliver surface water to an additional 1,510.6 acres that could have been irrigated with some of the District's ground water rights with an April 1, 1962 priority (water right nos. 36-15127A et al.). The District intends to continue to deliver surface water to lands formerly

[2] In December 2023 and January 2024, a number of ground water districts and A&B Irrigation District submitted new individual mitigation plans. The plans were advertised, and they were protested by various entities. The Director has appointed an independent hearing officer, Gerald F. Schroeder, to hear the contested cases on behalf of the Department. Those proceeding are ongoing and no final orders have been issued related to the new mitigation plans.

> irrigated with groundwater, approximately 3,573.6 in total, with groundwater supplied to certain areas as needed for pipeline operations.

Letter from Travis Thompson, attorney for A&B, to Mat Weaver, Department Director (May 1, 2024).

6. On May 2, 2024, IGWA filed IGWA's *Petition for Reconsideration of Final Order Regarding April 2024 Forecast Supply* ("*Petition for Reconsideration*") with the Department. In the *Petition for Reconsideration*, IGWA asked the Director to reconsider requiring IGWA to mitigate ground water diversions by non-IGWA members. *Petition for Reconsideration*, at 2. IGWA disputed the Director's conclusion that under IGWA's *2009 Storage Water Mitigation Plan*, IGWA must provide the full 74,100-acre-foot obligation. *Id*. The Director issued a *Final Order Denying IGWA's Petition for Reconsideration of April As-Applied Order* ("*Order Denying Reconsideration*") on May 10, 2024.

7. Historically, IGWA, acting on behalf of its member ground water districts, filed a notice of mitigation with the Department to establish that the ground water districts can mitigate the predicted IDS in accordance with an approved mitigation plan. However, this year, individual ground water districts submitted their own mitigation notices. Between May 2 and May 6, 2024, Bonneville-Jefferson, Jefferson-Clark, Magic Valley together with North Snake, Henry's Fork together with Madison, Bingham, Carey Valley, and American Falls-Aberdeen ground water districts (collectively, the "Districts") all filed mitigation notices with the Department.

8. On May 10, 2024, the Director issued an *Order Determining Deficiency in Notices of Secured Water* ("*Order Determining Deficiency*"). In the *Order Determining Deficiency*, the Director found that the mitigation notices filed by the Districts "are deficient and fail to demonstrate that they are operating in accordance with an approved mitigation plan." *Order Determining Deficiency*, at 11. The Director concluded:

> The *2016 Settlement Mitigation Plan* allows individual ground water districts to mitigate for their proportionate share of the 240,000-acre-foot reduction obligation set forth in the plan. It also requires that the ground water districts annually provide 50,000 acre-feet of storage water though private leases to the SWC 21 days after the day of allocation. While the *2016 Settlement Mitigation Plan* allows for determining the proportionate share of the reduction obligation of the parties, it does not authorize the proportionate sharing of the 50,000-acre-foot storage volume by the parties. As a result of the plain language of the plan, for any ground water district to comply with the plan, the entire 50,000 acre-feet must be provided.

Id. at 6. Additionally, the Director noted,

> that regarding the *2009 Storage Water Mitigation Plan*, if ground water districts submit adequate contracts to establish that they have secured storage water and the amount secured is less than the shortfall obligation, the Director will credit the contracted volume against the overall obligation, thus reducing the overall obligation for all ground water users.

Id. at 4. The Director gave the Districts until May 17, 2024, "to submit additional notice that demonstrates to the satisfaction of the [D]irector that they have secured storage water in compliance with either the *2009 Storage Water [Mitigation] Plan* or the *2016 Settlement Mitigation Plan*." *Id*.

9. On May 14, 2024, the Department received *IGWA's Conditional Notice of Mitigation Compliance; Petition for Reconsideration; and Request for Expedited Decision* ("*Second Petition for Reconsideration*"). IGWA's *Second Petition for Reconsideration* requested that the *Order Determining Deficiency* and *Order Denying Reconsideration* be "amend[ed] or vacate[d] and replace[d]" on an expedited basis. *Id*. at 3–4. The Director denied the *Second Petition for Reconsideration* on May 28, 2024.

10. On May 17, 2024, American Falls-Aberdeen filed a *Motion for Reconsideration of Order Determining Deficiency in Notices of Secured Water* ("*AFA's Motion for Reconsideration*"). American Falls-Aberdeen argued that requiring "evidence [that] it has secured storage water to satisfy the entire 50,000 acre-feet ("50kaf") delivery obligation . . . . is inconsistent with the plain language of the underlying settlement that was adopted as the *2016 Plan* and with the Department's prior interpretations of the ground water districts' obligations under the *2016 Plan*." *AFA's Motion for Reconsideration*, at 1. American Falls-Aberdeen requested the Director reconsider the *Order Determining Deficiency* to remove any obligation on behalf of the ground water districts to provide proof that 50,000 acre-feet of storage water has been secured under the *2016 Settlement Mitigation Plan*. *Id*. at 5–7.

11. Also on May 17, 2024, IGWA submitted *IGWA's Notice of Storage Water Leases* ("*IGWA's Notice*") for the purpose of demonstrating that adequate storage water leases were secured to mitigate material injury caused by ground water use within Bonneville-Jefferson, Jefferson-Clark, Magic Valley, North Snake, Henry's Fork, Madison, Bingham, and Carey Valley ground water districts, in compliance with the *2009 Storage Water Mitigation Plan*. *IGWA's Notice*, at 1. IGWA produced copies of storage water leases evidencing "44,509 acre-feet available to meet the proportionate mitigation of the" Districts, excluding American Falls-Aberdeen Ground Water District. *Id*. at 2 (emphasis added). Further, IGWA stated:

> These leases are submitted on condition that they are utilized by IDWR strictly to mitigate for material injury caused by groundwater use within the districts listed above [the Districts, excluding American Falls-Aberdeen Ground Water District] in accordance with Idaho Code § 42-5224(11). These leases cannot be used to roll back the curtailment date for all groundwater users or to otherwise mitigate for groundwater users that do not belong to the districts listed above.

Id. at 3.

12. On May 28, 2024, the Director issued an *Order Granting Upper Valley Districts Limited Intervention and AFA's Motion for Reconsideration* ("*Order Granting AFA Reconsideration*") and *Amended Order Determining Deficiency in Notices of Secure Water* ("*Amended Order Determining Deficiency*"). In the *Order Granting AFA Reconsideration,* the Director concluded:

> Under the plain language of the *2016 Settlement Mitigation Plan*, the 50,000-acre-foot obligation does not come due until 21 days after the day of allocation. *Settlement Agreement* at 2, ¶ 3.b.i. . . . . The Director agrees that those portions of the *Order Determining Deficiency* that condition AFA's safe harbor from curtailment on providing proof it has secure 50,000 acre-feet of storage water should be withdrawn and replaced.

Order Granting AFA Reconsideration, at 5. In accordance with the *Order Granting AFA Reconsideration*, the concurrently issued *Amended Order Determining Deficiency* included: "At this time, American Falls-Aberdeen is the only ground water district that has told the Director that it continues to uphold and seek protection under the *2016 Settlement Mitigation Plan* and has demonstrated that it continues to comply with all elements of the plan." *Amended Order Determining Deficiency*, at 10–11.

13. Also on May 28, 2024, the Director issued an *Order Denying IGWA's Second Petition for Reconsideration; Order Determining Deficiency in IGWA's May 17, 2024 Notice of Storage Water Leases* ("*Second Order Denying Reconsideration and Determining Deficiency*"). In the order, the Director concluded, "IGWA's *2009 Storage Water Mitigation Plan* requires IGWA to mitigate for all junior groundwater users," therefore, the Director could not consider the conditioned leases IGWA produced on May 17, 2024. *Second Order Denying Reconsideration and Determining Deficiency*, at 7. Consequently, the Director found *IGWA's Notice* to be deficient "because it fail[ed] to demonstrate that Bonneville-Jefferson, Jefferson-Clark, Magic Valley, North Snake, Henry's Fork, Madison, Bingham, and Carey Valley ground water districts are operating in accordance with an approved mitigation plan." *Id*. at 8. The Director ordered:

> Any ground water district that previously sought protection under the *2009 Storage Water Mitigation Plan* that now wishes to seek protection under the *2016 Settlement Mitigation Plan* has until Wednesday, May 29, 2024, at 5:00 p.m. (MT) to inform the Director of their intention to do so and to demonstrate they are incompliance with the *2016 Settlement Mitigation Plan*.

Id. (emphasis added).

14. On May 29, 2024, Henry's Fork and Madison ground water districts jointly filed a timely *Notice of Intended Compliance With 2016 Mitigation Plan by Henry's Fork Ground Water District and Madison Ground Water District* ("*HFMGWD Compliance Notice*"). The two districts gave notice,

> that for the year 2024, they will comply with the 2016 mitigation plan as to their proportionate share, which by agreement with IGWA to date has been 1,500 acre feet of storage and 3,000 acre feet of recharge as well as any adaptive management which the Director imposes on said [d]istricts should the various [Districts] fail to agree to any proportionality.

HFMGWD Compliance Notice, at 4.[3] Attached to the *HFMGWD Compliance Notice*, for the benefit of the two districts, is an assignable storage water lease for 1,500 acre-feet of storage water. *Id.* at 5, Attach.

15. On May 29, 2024, North Snake and Magic Valley ground water districts jointly filed a timely *Notice of Compliance; Request for Clarification* ("*NSMVGWD Compliance Notice*"). However, the *NSMVGWD Compliance Notice* does not inform the Director of an intention to seek protection under the *2016 Settlement Mitigation Plan*; instead, North Snake and Magic Valley request the Director grant them safe harbor under the *2009 Storage Water Mitigation Plan*. *NSMVGWD Compliance Notice*, at 9. The two districts commit to supply "their proportionate share of the full 74,100 April 2024-predicted IDS." *Id*. at 5. Further, North Snake and Magic Valley request the Director provide clarification and an explanation if he "believes the 2009 Plan is unavailable to the Districts for some reason, or unavailable to the Districts on a proportionate share basis . . . ." *Id*. at 9.

16. Additionally, on May 29, 2024, at 5:23 p.m., Bingham, Bonneville-Jefferson, and Jefferson-Clark ground water district jointly submitted *Bingham Ground Water District, Bonneville Jefferson Ground Water District, and Jefferson Clark Ground Water District Amended Notice of Mitigation Compliance* ("*BGWD Compliance Notice*").[4] Like North Snake and Magic Valley's notice, the *BGWD Compliance Notice* does not inform the Director of an intention to seek protection under the *2016 Settlement Mitigation Plan*; instead, the ground water districts continue to seek protection under the *2009 Storage Water Mitigation Plan*. *BGWD Compliance Notice*, at 3–4.

CONCLUSIONS OF LAW

1. Idaho Code § 42-602 authorizes the Director to supervise water distribution within water districts:

> The director of the department of water resources shall have direction and control of the distribution of water from all natural water sources within a water district to the canals, ditches, pumps and other facilities diverting therefrom. Distribution of water within water districts created pursuant to section 42-604, Idaho Code, shall be accomplished by watermasters as provided in this chapter and supervised by the director. The director of the department of water resources shall distribute water in water districts in accordance with the prior appropriation doctrine. The provisions of chapter 6, title 42, Idaho Code, shall apply only to distribution of water within a water district.

[3] Henry's Fork and Madison also state that they plan to mitigate "not only under the [*2016 Settlement Mitigation Plan*], but also under any version of the 2009 mitigation plan, which is being proposed by other ground water districts." *HFMGWD Compliance Notice*, at 4–5. In a previous order, the Director made it clear that ground water districts cannot apply their secured storage water to multiple plans. *Order Determining Deficiency*, at 3 ("ground water districts can apply their secured storage water to either plan, but not both."). Because Henry's Fork and Madison cannot mitigate under both plans, the Director will treat their submission solely as a request to mitigate under the *2016 Settlement Mitigation Plan*.

[4] While the filing is untimely, the Director will address the filing in this order.

2. As explained above, by May 2, 2024, ground water users with consumptive water rights "junior to March 31, 1954, within the [ESPA ACGWS]" had to "establish, to the satisfaction of the Director, that they can mitigate for their proportionate share of the predicted April IDS of 74,100 acre-feet in accordance with an approved mitigation plan." *As-Applied Order*, at 6. If a junior ground water user does not establish that they can mitigate for their proportionate share of the predicted April IDS "in accordance with an approved mitigation plan" the ground water user will be subject to this "order curtailing the junior-priority ground water user." *Id.*

3. Due to the nature of the approved mitigation plans for SWID, the Coalition of Cities, and the Water Mitigation Coalition, these entities do not need to establish that they can mitigate for their proportionate share of the predicted April IDS. Junior ground water users entitled to the protection of SWID, the Coalition of Cities, and the Water Mitigation Coalition mitigation plans will not be subject to curtailment during the 2024 irrigation season.

4. American Falls-Aberdeen, Henry's Fork, and Madison ground water districts have demonstrated that they are operating in accordance with the *2016 Settlement Mitigation Plan*. Junior ground water users who are members of American Falls-Aberdeen, Henry's Fork, or Madison ground water district will not be subject to curtailment during the 2024 irrigation season.

5. The *Second Order Denying Reconsideration and Determining Deficiency* gave ground water districts that "wish[ed] to seek protection under the *2016 Settlement Mitigation Plan* [ ] until Wednesday, May 29, 2024, at 5:00 p.m. (MT) to inform the Director of their intention to do so. . . ." *Second Order Denying Reconsideration and Determining Deficiency*, at 8 (emphasis added). The *NSMVGWD Compliance Notice* does not inform the Director of an intention to seek protection under the *2016 Settlement Mitigation Plan*. Accordingly, Magic Valley and North Snake have failed to show that they can mitigate in accordance with the *2016 Settlement Mitigation Plan*. Their notice does, however, express an intention to seek "safe harbor" under the *2009 Storage Water Mitigation Plan* and inquires as to the status of the mitigation plan. *NSMVGWD Compliance Notice*, at 9. As stated in the *Amended Order Determining Deficiency*, the Director considers the *2009 Settlement Mitigation Plan* "available for use at this time." *Amended Order Determining Deficiency*, at 4. But as was also made clear in that order, and again in the *Second Order Denying Reconsideration and Determining Deficiency*, the plain language of the plan requires that IGWA will mitigate for all ground water users, not just member participants. This is not an arbitrary requirement imposed by this Director. This is the plain language of the approved mitigation plan. IGWA has affirmed that this was IGWA's intent: "IGWA offered to provide storage water to mitigate all material injury, whether caused by IGWA members or others." *Second Petition for Reconsideration*, at 2. As was also stated in the *Amended Order Determining Deficiency*, previous decisions of the agency have held if IGWA fails to provide the full volume of secured water, the Director will subtract the amount of secured water from the overall obligation and not allow ground water districts to mitigate only for their water users' proportional share:

> IGWA cannot pick and choose who gets the benefit of storage water if IGWA is not providing storage water amounts equal to the shortfall obligation. The Director reiterated that regarding the *2009 Storage Water Mitigation Plan*, if ground water

> districts submit adequate contracts to establish that they have secured storage water and the amount secured is less than the shortfall obligation, the Director will credit the contracted volume against the overall obligation, thus reducing the overall obligation for all ground water users.

Amended Order Determining Deficiency at 4–5 (quotations and citations omitted). IGWA's obligation under the *2009 Storage Water Mitigation Plan* is 74,100 acre-feet. Magic Valley and North Snake state that they have secured what they claim is their proportionate share of the 74,100-acre-foot IDS—15,590 acre-feet of storage water. *NSMVGWD Compliance Notice*, at 6. Since they have secured less than the full shortfall obligation, if the Director were to accept their lease, it would not provide Magic Valley and North Snake "safe harbor under the *2009 Storage Water Mitigation Plan*" but would only reduce the overall obligation for all ground water users. It is clear from the *NSMVGWD Compliance Notice* that they only seek protection for their members, not for ground water users outside their district. While Magic Valley and North Snake did not expressly condition the Director's acceptance of their notice like IGWA did with *IGWA's Notice of Storage Water Leases*, it has the same effect. Magic Valley and North Snake seek an outcome that is inconsistent with the plan. Accordingly, the Director deems the notice deficient. If the Director has interpreted Magic Valley and North Snake's notice incorrectly and it was their intent to have the Director credit the contracted volume against the overall obligation, they simply need to submit a filing clarifying their intent. As a result of their deficient notice of secured storage water filings, Magic Valley and North Snake will be subject to curtailment during the 2024 irrigation season.

6. In the *BGWD Compliance Notice*, the Bingham, Bonneville-Jefferson, and Jefferson-Clark ground water districts take a position similar to Magic Valley and North Snake. They state that they have "secured storage water leases to fully cover their proportionate shares of the 74,100 acre-feet IDS . . . ." *BGWD Compliance Notice*, at 3. Like Magic Valley and North Snake, these ground water districts seek an outcome that is inconsistent with the *2009 Storage Water Mitigation Plan*. Accordingly, the Director deems the notice deficient. If the Director has interpreted their notice incorrectly and it was their intent to have the Director credit the contracted volume against the overall obligation, they simply need to submit a filing clarifying their intent. As a result of their deficient notice of secured storage water filings, Bingham, Bonneville-Jefferson, and Jefferson-Clark ground water districts will be subject to curtailment during the 2024 irrigation season.

7. A&B has failed to provide timely documentation that it has adequately secured the storage water necessary to mitigate for all its obligation under its approved mitigation plan.[5] Accordingly, A&B will be subject to curtailment during the 2024 irrigation season.

[5] On May 30, 2024, A&B submitted a lease for 62 acre-feet. The required fee had not yet been received by the Water District 01 watermaster. In the event the required fee is received, and the lease is approved, the Director will consider how to apply the mitigation benefit associated with the leased water.

8. Carey Valley Ground Water District has not demonstrated that it is operating in accordance with an approved mitigation plan. Accordingly, Carey Valley will be subject to curtailment during the 2024 irrigation season.

9. Consistent with the *As-Applied Orde*r, Idaho Code § 42-602, and decisions of the courts, the Director must order curtailment of junior-priority ground water users that have not established they can mitigate in accordance with an approved mitigation plan. Junior-priority ground water users subject to curtailment are listed in Attachments A and B[6] to this order.

ORDER

Based upon and consistent with the foregoing, IT IS HEREBY ORDERED that effective May 30, 2024, ground water users holding water rights bearing priority dates junior to March 31, 1954, within the ESPA ACGWS, and listed in Attachment A to this order, shall immediately curtail/refrain from diversion and use of ground water pursuant to those water rights unless notified by the Department that the order of curtailment has been modified or rescinded as to their water rights.

IT IS FURTHER ORDERED that effective May 30, 2024, ground water users holding water rights bearing priority dates junior to March 31, 1954, within the ESPA ACGWS, and listed in Attachment B to this order, shall curtail/refrain from diversion and use of ground water pursuant to those water rights unless notified by the Department that the order of curtailment has been modified or rescinded as to their water rights.

IT IS FURTHER ORDERED that holders of ground water rights listed in Attachment B to this order may seek to participate in an approved mitigation plan through a ground water district and shall have fifteen days from the date of this order to join, solely for mitigation purposes, the ground water district situated nearest the lands to which the water rights are appurtenant. *See* H.B. 737a, 58th Leg., 2d Reg. Sess. (Idaho 2006) (*Act Relating to the Administration of Ground Water Rights Within the Eastern Snake River Plain*); *see also* I.C. § 42-5259.

IT IS FURTHER ORDERED that watermasters for the water districts within the ESPA ACGWS who regulate ground water are directed to review the water rights listed in Attachment A and B to this order and begin the curtailment process.

IT IS FURTHER ORDERED that this order shall apply to consumptive ground water rights, including but not limited to, agricultural, commercial, industrial, and municipal uses. This order excludes ground water rights used for *de minimis* domestic purposes where such domestic use is within the limits of the definition set forth in Idaho Code § 42-111 and ground water rights

[6] The *Act Relating to the Administration of Ground Water Rights Within the Eastern Snake River Plain*, H.B. 737a, 58th Leg., 2d Reg. Sess. (Idaho 2006), allows for ground water users that are not members of a ground water district to join or participate in an approved mitigation plan of a ground water district. Attachment B identifies those junior ground water users who, according to Department records, are not currently members of a ground water district and are subject to curtailment by this order.

used for *de minimis* stock watering where such stock watering use is within the limits of the definitions set forth in Idaho Code § 42-1401A(11), pursuant to IDAPA 37.03.11.020.11.

Dated this 30th day of May 2024.

MATHEW WEAVER
Director

EXPLANATORY INFORMATION TO ACCOMPANY A FINAL ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 740.02)

The accompanying order is a "**Final Order**" issued by the department pursuant to section 67-5246, Idaho Code.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a final order within fourteen (14) days of the service date of this order as shown on the certificate of service. **Note: The petition must be received by the Department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5246(4), Idaho Code.

REQUEST FOR HEARING

Unless the right to a hearing before the director or the water resource board is otherwise provided by statute, any person who is aggrieved by the action of the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the action. The person shall file with the director, within fifteen (15) days after receipt of written notice of the action issued by the director, or receipt of actual notice, a written petition stating the grounds for contesting the action by the director and requesting a hearing. See section 42-1701A(3), Idaho Code. **Note: The request must be received by the Department within this fifteen (15) day period.**

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of: a) the service date of the final order, b) the service date of an order denying petition for reconsideration, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.
